PROFILE

Writer, product thinker, and hands-on builder with senior copywriting experience and four years in digital product design. I turn complex products and customer needs into clear, audience-aware narratives, then extend those ideas through visual systems, prototypes, and content across formats. My work combines customer research, brand judgment, cross-functional collaboration, and AI-assisted execution in startup and client environments.

CORE CAPABILITIES

Long- and short-form writing | Product and customer storytelling | Audience research | Executive-ready communications
Content strategy | Visual storytelling | Figma | AI-assisted prototyping | Usability testing | Cross-functional delivery

PROFESSIONAL EXPERIENCE

2026 - Present

Co-founder

Oupelaye Studio | Quebec, Canada

Shape the studio's product story and player experience, leading art direction and game UX from concept through playtesting. Partner with development to turn qualitative feedback into clearer onboarding, product decisions, and visual communication.

2025 - Present

Independent Game Designer & Art Director

Independent projects | Remote

Develop and communicate original concepts through AI-assisted prototyping, interaction design, visual storytelling, and iterative playtesting. Use Figma, Godot, GitHub, and generative tools to move quickly from idea to tangible experience.

2023 - Present

Senior Copywriter

The Immigration People | Singapore

Create clear, audience-aware content that turns complex immigration topics into useful guidance. Adapt language to customer needs while maintaining accuracy, discretion, and a consistent voice across high-stakes communications.

2023 - 2024

Executive Assistant

ed&c; | Singapore

Produced and coordinated executive communications, priorities, and stakeholder updates across fast-moving operational work while handling confidential information with care.

2020 - 2022

Digital Product Designer

abillion | Singapore

Owned end-to-end UX for a launched profile revamp. Partnered across product, engineering, marketing, and data; gathered customer insight through moderated research and translated findings into content hierarchy, product direction, prototypes, and launch-ready experiences.

2017 - 2019

UX/UI Designer

Decision Science | Singapore

Translated client brands, business goals, and complex information into responsive web experiences, narrative page structures, prototypes, and build-ready specifications with clients, project managers, and developers.

SELECTED WORK

Content + Product Storytelling Portfolio

Original long-form, social, and customer-story concepts demonstrating range across writing, narrative development, and visual communication.

abillion Profile Revamp

Led a shipped redesign and eight-task moderated study with four participants; synthesized customer friction into a clearer content and interaction system.

Inventory Management System

Identified, designed, built, and iterated a working inventory website in five days, translating CSV and Notion data into clear operational views.

EDUCATION

2022 - 2023

Design Management, Post-graduate Certificate

George Brown College | Dean's List

2016 - 2017

Bachelor of Communication, Professional Communications

RMIT University | Singapore & Australia
